

Coreix Cloud Services Limited

Environmental Policy Statement

The Board of Directors for Coreix Cloud Services Limited is committed to comply with applicable legal requirements and with other requirements which relate to the environmental impact of its activities, products and services. We are committed to the prevention of pollution and reducing our environmental impact by continually improving our environmental performance as an integral part of our business strategy and operating methods, with reviewed annually environmental objectives and targets through Business Management System framework. In order to achieve our aims we endeavour to:

- Comply with and exceed all relevant regulatory requirements
- Prevent pollution through the identification and control of our significant environmental aspects
- Continually strive to minimise waste and improve waste management practise (Reduce, Reuse and Recycle)
- Use licensed and appropriate organisations to dispose of waste
- Make continuous efforts to be energy – efficient, embrace new technology and take into account the energy consumption, efficiency and the environmental impact of new products
- Use green power where available and offset carbon emissions
- Investigate any environmental incidents that may result from Coreix activities and correct nonconformities
- Reduce vehicle emissions, promote to use public transport, bicycle and increase productivity by working remotely
- Increase employee’s awareness through training and involve staff in the implementation of this policy for greater commitment and improved performance
- Update this policy annually in consultation with staff and other stakeholders where necessary
- Work with suppliers, contractors and sub-contractors to improve their environmental performance
- Make environmental information available to interested parties
